Austin 4, 5, 6 Monday, August 25: 10:30 a.m. - Noon	<p><b>Exterro, Inc. — Fusion Legal Hold and Discovery Workflow Software State of the Art Technology Demo</b></p> <p>This session demonstrates using Fusion Legal Hold and Discovery Workflow Management to empower law firms and corporate legal departments to mitigate risk, control cost, reduce turnaround time and gain a competitive edge over opposing counsel. Fusion software: streamlines complete e-discovery workflow; automates legal hold and collection workflows; leverages e-discovery project management framework; plans, conducts and tracks interviews with custodians and data stewards; facilitates vendor relations; tracks document review and production; sets budgets and tracks costs; monitors progress and schedules; integrates with other discovery tools; and provides powerful reporting tools and dashboards.</p> <p><b>Speaker(s):</b> Bobby Balachandran — Exterro, Inc. Bob Rohif, Esq. — Exterro, Inc.</p>	DEMO1
Grapevine 5, 6 Monday, August 25: 10:30 a.m. - Noon	<p><b>The Dollars and Sense of Going Green Finance</b></p> <p>As concerns over global climate change grow and energy costs soar to new heights, law firms in the U.S. and around the world are taking a fresh look at "going Green." With companies like Bank of America, Wal-Mart, Home Depot, GE and Siemens undertaking major initiatives to reduce carbon emissions, some law firms are beginning to feel pressure from clients to identify their plans for reducing their "carbon footprint," while others are seizing a market opportunity to serve increasingly environmentally savvy companies. So how can a law firm "go Green," and perhaps more important, what will it cost?</p> <p><b>Speaker(s):</b> Cathy Hill — Whiteman, Osterman &amp; Hanna Kathy Sheehan — Marsdale</p>	FIN1
Ft. Worth 5, 6, 7 Monday, August 25: 10:30 a.m. - Noon	<p><b>Different Flavors of Backups Infrastructure Technologies</b></p> <p>Ever wonder how firms are handling the multitude of issues surrounding backups including: retention policies, need for storage space, tapes, tape less, disk-to-disk and appliances? What does "backup" really mean with data replication involved? Many firms struggle on a daily basis to find the right window of time to run backups. Our panel of speakers recounts their own battles and share what they have decided and implemented to resolve these issues.</p> <p><b>Speaker(s):</b> James Lunsford — Boulton, Cummings, Conners &amp; Berry PLC Mark Puchalski — Honigman Miller Schwartz and Cohn LLP Melany Palacios — Snell &amp; Wilmer</p>	TEC1

Grapevine B Monday, August 25: 10:30 a.m. - Noon	<p><b>Best Practices in Professional Development in Law Firms</b>  <b>Professional Development</b></p> <p>A fully-developed professional development program involves much more than technical training. Most law firms provide technical training, but overlook the need for developing communication, management and other "soft" skills that are critical to productivity and job satisfaction. We examine the elements needed to ensure a well-rounded, successful professional development program that helps attorneys and staff grow in their careers and worth to the firm, combining theory with case studies from representative firms.</p> <p><b>Speaker(s):</b>                      Ruth Halpern — Halpern &amp; Associates                      Jenn Steele — Morrison Mahoney LLP                      Kathryn McCarthy — Miller Starr Regalia</p>	PROF1
Austin 1, 2, 3 Monday, August 25: 10:30 a.m. - Noon	<p><b>The Evolving Role of Security</b>  <b>Risk Management Peer Group</b></p> <p>We explore the different risk management models taking shape in the legal industry as compared to other similar industries. We will use these models in tandem with fresh research from our membership to paint a picture of where the practice of risk management is headed. Finally, our speakers discuss steps you can take today to align your company for tomorrow's risk management needs.</p> <p><b>Speaker(s):</b>                      Gabrielle Dowling — Proskauer Rose LLP                      Jim Soenksen — Pivot Group                      Stephen Martin — Potter Anderson &amp; Corroon LLP                      Jeff Franchetti — Cravath, Swaine &amp; Moore LLP</p>	RISK1
Dallas 5, 6, 7 Monday, August 25: 10:30 a.m. - Noon	<p><b>Office 2007 — Rollout Prep from the End User Perspective</b>  <b>User Support Peer Group</b></p> <p>Office 2007 presents significant changes in user interface and overall document production and management processes. In order for a firm to protect itself from a negative impact on productivity among users new to the Office 2007 interface, education and orientation must be a key consideration before, during and after the rollout. We address shrinking classroom training time and how to educate user groups about the change and prepare them to work in the new software without interruption. We'll help you make your Office 2007 rollout a huge success!</p> <p><b>Speaker(s):</b>                      Charlene Lemaire — Traveling Coaches, Inc.</p>	USR1

Grapevine D Monday, August 25: 1:00 p.m. - 2:00 p.m.	<p><b>Experience Management — Case Studies in Tackling a Difficult Challenge</b>  <b>Knowledge Management Peer Group</b>                      A request frequently made of KM or IS professionals in law firms is to implement a way to efficiently track and report the experience of individual attorneys. Doing this can help both sell work and deliver work. However, experience management has proven surprisingly difficult. Just defining the type of work to be tracked can pose a stumbling block, as it can be tough to find the “just right” level of detail between the “too broad” and “too narrow.” This panel explores ways to manage law firm experience through case studies from firms who have made good progress. Each panelist will discuss the business challenge they faced, the tool they built or adapted to address it, the processes they deployed to ensure good tracking and reporting and the results realized.</p> <p><b>Speaker(s):</b>                      Catherine Monte — Fox Rothschild LLP                      Kathrine Cain — Winston &amp; Strawn LLP                      Stan Wasyluk — Michael Farrell Group                      Douglas Cornelius — Goodwin Procter LLP</p>	KM2

Grapevine C Monday, August 25: 4:00 p.m. - 5:00 p.m.	<p><b>Office 2007 — Bridging the Gap Between '07 and Previous Versions</b>  <b>Applications</b>                      Office 2007 is here, and firms are dealing heavily with files in the new format. Many have deployed the compatibility pack to users, others have centralized departments for dealing with these files or a Citrix solution for users requiring Office 2007. And others are in the process of deploying Office 2007. Attend this interactive session to hear how three firms are "bridging the gap" between both older versions of Office files and among Office and other integrated applications. Learn the "gotchas" associated with the compatibility pack, find out which integration issues may be show stoppers. You'll leave this session with a clear understanding as to why integration testing and pilots are more important than ever!</p> <p><b>Speaker(s):</b>                      Eric Levinson — Mayer Brown LLP                      Heidi Herpel — King-Herpel Associates                      Jeff Ward — Fulbright &amp; Jaworski L.L.P. Austin 4, 5, 6 Tuesday, August 26: 11:00 a.m. - 12:30 p.m.	<p><b>Esquire Innovations Inc. — iScrub 7.0 — Metadata Management in Office 2007 State of the Art Technology Demo</b></p> <p>See the latest advancements in metadata management. With the advance of electronic discovery requirements and state bar associations offering advice on metadata, it is essential for firms to have a metadata policy in place, the technology to enforce that policy and the ability to provide evidence of a policy should orders be received for documents to be shared during discovery. Firms need software to create clean copies of documents for external review based on firm policies not end user "policy." iScrub is already the industry standard for metadata management. Come and meet the latest version, iScrub 7, the next step in metadata management. Taking full advantage of XML, .net and .zip file technology, iScrub is now more flexible than ever, making metadata management administration trouble-free.</p> <p><b>Speaker(s):</b> Judy Carter Reynolds — Esquire Innovations Inc.</p>	DEMO6
Ft. Worth 5, 6, 7 Tuesday, August 26: 11:00 a.m. - 12:30 p.m.	<p><b>CIO Roundtable — Challenges in Demonstrating IT Payoff Executive</b></p> <p>Being asked to demonstrate the business value of IT to your firm management? Join an international group of CIOs from three ILTA member firms for an interactive discussion on how IT service value may be evaluated when compared with leading financial performance indicators. Examples and ideas on determining key performance metrics, measuring and tracking trends, working with firm management to develop financial performance indicators, as well as mapping existing technology to key business processes will be explored.</p> <p><b>Speaker(s):</b> Brent Snow — Baker &amp; McKenzie David Cunningham — Baker Robbins &amp; Company Janet Day — Berwin Leighton Paisner Peter Bier — Osler, Hoskin &amp; Harcourt LLP</p>	EXEC2

Grapevine B Wednesday, August 27: 1:30 p.m. - 2:30 p.m.	<p><b>Law Firm Economics 102</b>  <b>Business Strategy</b></p> <p>To start affecting the profits of their firm, lawyers, legal technologists, finance professionals and others must understand one basic reality. Law firms, for all their cultural intricacies, are still businesses and like all businesses, their profitability is guided by a number of basic factors or drivers. Understanding these drivers and, more important, their interaction with one another, is the first step to the Holy Grail of larger profits. This session provides examples drawn from the Redwood Think Tank. Through the Think Tank, a number of firms have posed and analyzed compelling economic and finance problems. The results of these studies have been put to use by Think Tank law firm members, sometimes to great advantage. Examining such studies reveal the relationship among this new information, profit drivers and profitability results. Through such examples, session attendees will come to understand some of the "sweet spots" where firms have opportunities to improve their practice and business results.</p> <p><b>Speaker(s):</b>            Kris Satkunas — Redwood Think Tank            Ron Paquette — Redwood Think Tank</p>	BUS3

Grapevine B Wednesday, August 27: 3:30 p.m. - 4:30 p.m.	<p><b>Search as Strategy — Creating 'Information Gravitation' in the Firm</b>  <b>Business Strategy</b></p> <p>Enterprise search is all the rage but much of the talk is about search as an "application." Can search be more than just another entry on the shopping list of applications firms buy? Can it serve as a foundation element in an overall information strategy? Some firms are beginning to talk about creating a kind of "information gravitation" both inside the firm and across the firewall to clients. With such gravitation in place, the right information flows to where it is needed, when it is needed and often without need for discrete searches. Learn the role such information gravitation play in overall information strategy, the impact such a goal has on choices of technology, security and privacy concerns, deployment timeframes and on levels of investment. If that is the vision, how do you enlist the whole firm in it?</p> <p><b>Speaker(s):</b>            Derek Schueren — Recommind            Felicity Badcock — Mallesons Stephen Jaques</p>	BUS4
Dallas 5, 6, 7 Wednesday, August 27: 3:30 p.m. - 4:30 p.m.	<p><b>Three Ways To Use Wikis in Law Firms</b>  <b>Communication &amp; Collaboration Tools</b></p> <p>Law firms are trying to increase communication and promote collaboration by utilizing emerging technologies such as wikis. Explore what Wiki's are, how they differ from existing solutions and what they have to offer in your own firm. In this session, you'll see three distinct methods to utilize wikis in a legal environment.</p> <p><b>Speaker(s):</b>            Chad Ergun — White &amp; Case LLP            Peter Westerveld — Minter Ellison</p>	COM8
Austin 4, 5, 6 Wednesday, August 27: 3:30 p.m. - 4:30 p.m.	<p><b>Profiscience Partners (formerly SS Solutions) — SkillSite</b>  <b>State of the Art Technology Demo</b></p> <p>Profiscience Partners introduces SkillSite, a web-based platform that provides a complete set of tools to successfully implement, score and manage assessments designed to measure desktop application skills for employees and new hires. Profiscience Partners is leading the way to provide the first legal specific software application designed entirely around Microsoft Office 2007 XML file format that will rapidly and accurately score assessments. Additionally, this product now makes it possible to collect and aggregate assessment data by creating personalized learning plans that integrate with the LMS, enabling firms to provide targeted training to close identified skill gaps and track performance improvement.</p> <p><b>Speaker(s):</b>            Theresa Lundquist — Profiscience Partners</p>	DEMO12
Ft. Worth 5, 6, 7 Wednesday, August 27: 3:30 p.m. - 4:30 p.m.	<p><b>How To See the Forest for the Trees — Growing from Manager to Leader</b>  <b>Executive</b></p> <p>The steps to transition from a manager to a leader are often taken for granted. We have all known great managers, but great managers don't necessarily develop into great leaders. Talents in organization, communication, people skills and project coordination found in successful managers can be useful experience in a leadership position. Leaders, however, have to let go of the need to manage known quantities and reach beyond to introduce new ideas and shake up the status quo to guide their firm in new and profitable directions. Two recognized leaders in our industry share their insights, experience, successes and challenges when they faced the transition from manager to leader in an informal (and sure to be humor-filled) chat with the audience.</p> <p><b>Speaker(s):</b>            Judi Flournoy — Loeb &amp; Loeb LLP            Don Jaycox — DLA Piper</p>	EXEC8

Austin 1, 2, 3 Thursday, August 28: 10:30 a.m. - 11:45 a.m.	<p><b>LEDES Law Firm E-Billing Best Practices Roundtable Discussion</b>  <b>Miscellaneous</b></p> <p>In 2008, the LEDES Oversight Committee authorized the formation of a Law Firm Subcommittee to create a white paper on law firm e-billing best practices. Ten years ago, very few firms were asked to bill electronically. Today, in addition to standard e-billing middleware systems, firms are requested to submit information to many client-created systems, specific-purpose systems (supporting, for example, electronic billing for asbestos or the mortgage industry, or more basic systems that automate the AP process) and not only supply electronic billing information, but also all types of other information as well. During this session, the Subcommittee will solicit feedback from participants on the solutions put in place by law firms to organize the e-billing function and handle the requirement to e-bill. What you've tried? What has worked for you and what hasn't? How do factors within a law firm organization impact the success of one solution versus another? What kind of support was offered by your partnership? Join us for what should be a very interesting discussion.</p>	<b>MISC11</b>
Grapevine A Thursday, August 28: 10:30 a.m. - 11:45 a.m.	<p><b>What's New in Wireless Technologies</b>  <b>Mobile, Remote &amp; Wireless Peer Group</b></p> <p>This session reviews some of the latest technologies, applications and directions that are available in the wireless and mobile world.</p> <p><b>Speaker(s):</b>            Dave Bean — eAccess Solutions Inc.</p>	<b>MRW2</b>

Exhibit Hall Thursday, August 28: 11:45 a.m. - 12:30 p.m.	<p><b>Vendor Bingo</b></p> <p>Vendor Bingo is a popular conference game that attracts attendees to the Exhibit Hall. Each attendee is given a bingo card with a square corresponding to each exhibitor booth. Each exhibitor is given a stamp to validate the bingo card. Conference attendees are encouraged to visit each booth to acquaint themselves with our exhibitors and get their cards stamped. On Thursday morning, cards are collected and screened for completeness. There will be one level of prizes for having at least 40 squares stamped. To get a card stamped, an attendee must answer two questions posed by each exhibitor. The Vendor Bingo Drawing will be held in the Exhibit Hall.</p>

Grapevine B Thursday, August 28: 2:00 p.m. - 3:00 p.m.	<p><b>Building Bridges to the Practice Business Strategy</b></p> <p>How many times have you heard that technology projects "need buy-in from the top" or that IT needs to "connect with the practice?" Many projects, and sometimes whole IT departments, find it hard to establish this connection, leaving them little recourse than to buy what others buy, follow the herd and hope for success. We explore "structural" ways to connect IT strategy with business strategy. It is not enough simply to acknowledge the need to connect. You need to have a plan to do so and take specific steps to carry out that plan. We discuss organizational structures, communication methodologies and other techniques designed to help you make the connection.</p> <p><b>Speaker(s):</b> Sally Gonzalez — Exenet LL</p>	<b>BUS7</b>

Grapevine B Thursday, August 28: 3:30 p.m. - 4:30 p.m.	<p><b>Global Law Practice and Technology Strategies in the U.S., U.K. and Australia</b>  <b>Business Strategy</b></p> <p>While global law firms compete across the waters for international business, the U.S., U.K. and Australia each have unique legal environments and unique competitive pressures. That has led firms in each jurisdiction to take somewhat different approaches from the others with respect to legal technology. What are the differences in law practice environments? How have firms reacted to competitive pressures and how has that manifested differently in each jurisdiction? Have more legal technology “best practices” emerged from one jurisdiction than from the others? Is there a legal technology leader? What can each learn from the others? We field a global panel and look at these differences and see what we can learn.</p> <p><b>Speaker(s):</b>            Andy Rudall — Wragge &amp; Co LLP            Gerard Neiditsch — Mallesons Stephen Jaques            John Alber — Bryan Cave, LLP</p>	BUS8
